6. BASIS OF THIS DECLARATION

Conformity has been assessed in accordance with harmonised standard EN IEC 63000:2018 — Technical documentation for the assessment of electrical and electronic products with respect to the restriction of hazardous substances. The technical documentation supporting this declaration is retained by the manufacturer and comprises:

- RoHS declarations of conformity and material declarations obtained from component manufacturers and franchised distributors covering all items on the product bill of materials;
- supplier declarations covering the bare printed circuit board, its surface finish and soldermask;
- declarations covering process materials used in assembly, including solder alloy and flux, together with confirmation of lead-free process control from the contract manufacturer;
- declarations covering packaging and any accessories supplied with the product;
- analytical test data to IEC 62321 where held for individual materials.

This documentation is reviewed at each bill of materials or hardware revision, and this declaration is reissued where the review affects its content.
